Experience

Shopify Developer, *Klientship Technologies Pvt. Ltd* 05/2025 – Present
Mangalore

- Developed and customized Shopify stores to enhance user experiences, boost website performance, and optimize customer journeys through theme customisation, responsive design, conversion-focused layouts, and eCommerce functionality enhancements.
- Collaborated with team members to achieve target results.
- Addressed customer complaints through effective communication and resolution strategies to ensure satisfaction.
- Ensured workplace cleanliness and safety by regularly organising and sanitising areas.

ML Intern, *AIRAT SYSTEMS LLP* 01/2025 – 05/2025
Built an object sorter with YOLOv8 and MobileNetV3, ran it on a device, added a live results dashboard.

Android Developer, *Coding Key LLP* 10/2023 – 11/2023
Worked on Android apps using Java, made them run smoother, added features like real-time updates.

Projects

SMART (Smart Monitoring and Amphibious Robotic Trash-collector)

- An AI-powered robot for waste cleanup, wildlife protection, and water monitoring in aquatic environments.
- Tools and technologies utilized: YOLOv8, TensorFlow Lite, SVM, Firebase, ESP8266, Arduino Mega, Python, OpenCV, Ultrasonic, pH, TDS, Turbidity, GPS sensors
- Developed an amphibious robot with YOLOv8-based waste and turtle detection, GPS tagging, and Firebase integration. Enabled water quality monitoring using SVM and sensor data, with autonomous navigation through geofencing and obstacle avoidance.

Automatic Number Plate Recognition with Vehicle tracking

- Built an ANPR system to detect lost vehicles by capturing images, extracting number plates, and locating them in real-time.
- Tools and technologies utilized: Fundamental libraries including NumPy, Pandas, Matplotlib, and Scikit-learn, are employed to support machine learning tasks in Python, using the Jupyter IDE.

Artificial Vision Using YOLO

- YOLO-based object detection aids the visually impaired, offering real-time recognition and auditory or haptic feedback
- Tools & technologies used: Firebase, YOLO-V8, Python, Visual Studio Code

Leave Management System

- Designed and developed a web-based LSM to automate employee leave applications, approvals, and tracking processes
- Tools & technologies used: Python, Flask, MySQL, HTML5, Bootstrap 5.3, XAMPP
- Created a leave management system with role-based logins, real-time tracking, admin controls, and a clean leave history backed by a structured database.

Arecanut Sortbot: AI-Based Automated Grading System

- Developed an AI-based system for automated arecanut grading using machine learning and embedded systems.
- Tools & technologies used: YOLOv7/YOLOv8, MobileNetV3, TensorFlow, Edge Impulse
- A system that uses machine learning to classify images, controls sorting hardware, and shows real-time results on a web dashboard to make agricultural sorting faster and more consistent.

Technical Skills and Interests

Programming Languages
C, C++, Python,JavaScript

Libraries
Numpy, Pandas, Matplotlib, Sklearn, Tensorflow, Keras, PyTorch

Databases
Relational Databases (Oracle, MySQL, Microsoft SQL Server), NoSQL Databases (MongoDB)

Soft Skills
Problem Solving, Self-learning, Quick Thinking, Adaptability.

Web Development & Shopify
Shopify ,Liquid ,HTML5 ,CSS3 ,Bootstrap ,Flask ,Responsive Web Design ,Theme Customization ,Store Optimization

Coding Platforms
VScode, Jupyter Notebook, Colab

Relevant Coursework
Machine Learning, Digital Image Processing, Database Management, Software Testing

Certifications
Database and SQL (Infosys Springboard) Introduction to natural language processing (Great Learning Academy) JobReady Employability Skills (Wadhwani Foundation) Explore Machine Learning using Python (Infosys Springboard)

Education

Bachelor of Engineering in Computer Science and Engineering(AIML), 2021 – 2025
Sahyadri College of Engineering and Management, Adyar
CGPA: 7.5

Nitte Rukmini Adyanthaya Memorial Polytechnic 2019 – 2022

- Karnataka State Board
- Percentage: 75

Shri Vyasa Maharshi Vidya Peet 2017

- Karnataka State Board
- Percentage: 67
